# A review of the Catford South/ Whitefoot North 20mph zone

A 20mph zone was introduced in your area during the Spring of 2007. The zone consists of signed entry points along with traffic calming to restrict speeds.

The Council has received a finite amount of money from Transport for London (TfL) to review your zone and make any minor adjustments and improvements.

We are therefore asking residents, businesses and schools within the zone's boundary to take part in this review.

Our intentions are:

- to investigate what may have arisen as a result of the zone's introduction

and

- to examine the scope for introducing small additional measures which might make the area safer.

**Your comments and observations will play an important part in this process so please complete and return the questionnaire at the back of this leaflet.**

**We are now asking you to complete the attached questionnaire and return it (Freepost) to us.**

**The questionnaire gives you the opportunity to tell us what you think of your local 20mph zone and how it might be improved All you need to do is answer the questions, tear of the sheet and post it. Our address is on the reverse side of the questionnaire and there is no need to add a postage stamp.**

**Please return the questionnaire to us**
