Foreword

I am proud to have been elected by our residents to serve as Mayor of Lewisham. I was elected alongside 54 councillors on a bold and radical manifesto of change for our borough.

Lewisham is an exciting place to live – made up of vibrant and distinct communities that stretch from Blackheath to Sydenham and from Deptford to Downham.

The borough is changing too. Over the last decade we have seen considerable investment and growth and we continue to welcome the new families making Lewisham their home. Now is the time to take stock of what has been achieved in Lewisham and build a new vision to meet the challenges our residents face today.

Inequality is growing in society and too many Lewisham residents do not get to share in the wealth and opportunities that London has to offer. Austerity has also meant that all councils have been forced to cut services when residents needs are increasing.

Our new Corporate Strategy sets out how Lewisham Council plans to deliver for our residents over the next four years. How, in the face of austerity, where councils have been forced to cut services, we can still make a difference and change lives. Importantly, it is also about how we protect the individual identities of our neighbourhoods and continue to make Lewisham a place we love to live in.

We are building on Lewisham's historic values – fairness, equality and putting our community at the heart of everything we do – and turning these values into practical, deliverable policies for the next four years.

I look forward to working with you.

Damien Egan, Mayor of Lewisham

Our values

Our values set a benchmark for our behaviour across the organisation:

- We respect all people and all communities
- We invest in employees
- We are open, honest and fair in all we do.

Working with our partners

The importance of working in partnership

Since the early 1970s, when the Council was led by Andy Hawkins, we have fostered and developed a proud tradition of working alongside residents and community, voluntary and faith groups in the Borough. We like to call this way of working 'the Lewisham Way', and it's part of what makes Lewisham different.

We are aware of the challenges that face our citizens locally and of the important role our partners play in addressing them alongside us. We know that it is only through strong and effective partnership working that we will deliver better outcomes for our citizens.

A large, stylized teal number '6' is positioned on the left side of the page. A thick teal diagonal line runs from the top right towards the bottom left, passing behind the text.

Our corporate priorities

We want to build on the Council's historic legacy and the benefits the Lewisham Way brings to our borough and its residents. We will continue to work with our vibrant local groups and public services to provide opportunities, support our residents to improve their quality of life and offer them the best chance to overcome any barriers they face.

And as we look ahead, we know that we work best when we're working together. This history and approach is reflected in our corporate priorities. We will seek to deliver all of our commitments for Lewisham, in so far as the law allows and so far as is consistent with the Council's legal and fiduciary duties and budgetary constraints.

We can only deliver our commitments if we continue to work in the Lewisham Way with residents, communities, partners, local employers and community groups. The Council is one of several key partners in Lewisham and we need to work collectively to address the challenges we seek to tackle.

The Mayor, cabinet, councillors and staff will continue to seek new opportunities to hear from, and work alongside, the communities and residents they represent and serve.

Timeline for delivery

We will now work with our councillors, staff, communities and partners to co-produce detailed plans, where appropriate, to deliver our commitments. All of our teams will shape their plans for service delivery in the coming years to ensure they are working directly to deliver this strategy and all future decisions will be required to show how they are contributing to the delivery of our renewed priorities and this strategy.

DEPTFORD
LOUNGE

Creating an inclusive Lewisham

In Lewisham, we celebrate and welcome diversity. Lewisham is a borough characterised by the diversity of our communities. This is one of our greatest strengths, which makes us the dynamic and vibrant borough that we are.

As part of a global age, the borough and our wider society will continue to grow and evolve. We need to continue to ensure that everyone in Lewisham has equitable access to the support and services they need.

Achieving better outcomes for people

We will continue to work closely with our partners and residents to understand the:

- differing needs of our diverse community
- differing life chances of individuals and families
- barriers to equality and improving opportunities and outcomes for all.

Comprehensive Equality Scheme

Our Comprehensive Equalities Scheme (CES) is the strategic framework for our five quality objectives to:

- tackle victimisation, discrimination and harassment
- improve access to services
- close the gap in outcomes for citizens
- improve mutual understanding and respect, within and between communities
- increase participation and engagement.

The CES makes sure that equalities are embedded in everything we do and that equalities are a fundamental consideration in all of our decisions. The CES sets out how we will continue to address the needs of people with protected characteristics:

- age
- disability
- gender reassignment
- marriage and civil partnership
- pregnancy and maternity
- race
- religion or belief
- sex
- sexual orientation.

These characteristics are outlined in the Equality Act 2010.

A diverse workforce

We are proud of the commitment and diversity of our workforce, with our staff broadly reflecting the diversity of the borough's population. 70% of our workforce are women 42% of our staff are BAME, both above the London average. Over 42% of our staff also live in the borough. As the borough's largest single employer, we have a significant role to play in helping achieve economic prosperity and social stability for our residents.

A new strategy for people management and organisational development is currently being produced, building on our proud history of supporting the development of a diverse local workforce, to ensure our staff continue to be equipped with the skills they need to deliver our commitments to our residents.

How the Council is funded

In the current climate of central government austerity and Brexit looming, funding remains our greatest challenge. Our funding has been cut hugely over the last eight years, and further cuts anticipated in this and coming years present us with a huge challenge.

Since 2010, we have responded to austerity by adjusting to reduced funding and growth pressures by making £165 million of cuts in the eight years since 2010/11. Our general fund budget for 2018/19 is £241 million. If we were still funded at 2010/11 levels, it would be £406 million. This represents a reduction of 41%.

Our financial strategy

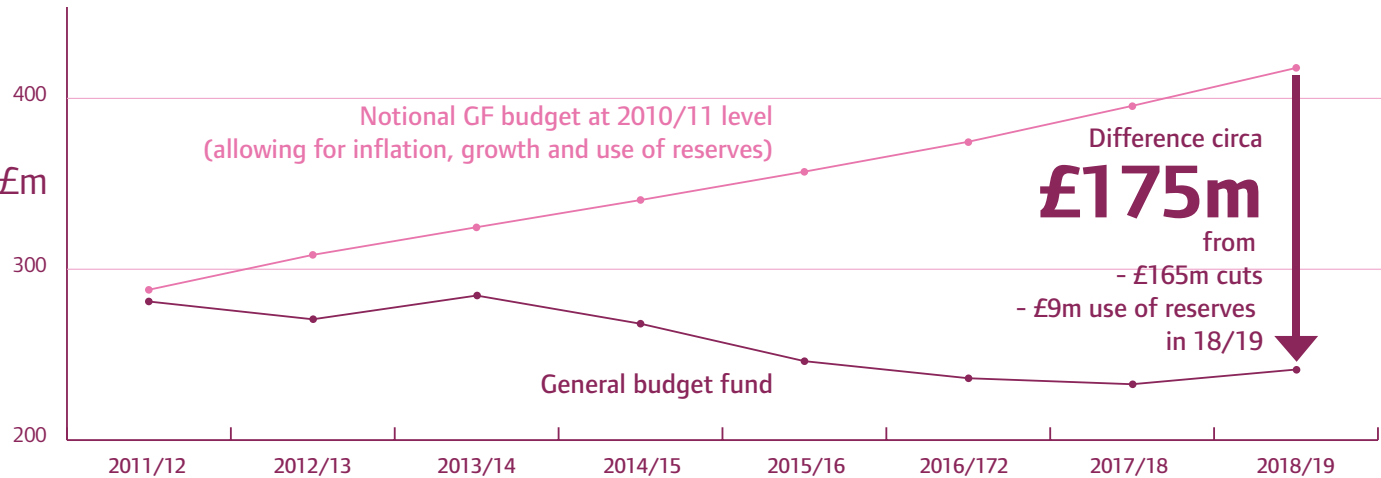

Legally, we have to set a balanced budget every year. The budget determines how much we expect to spend, and matches this to the available income. Knowing the level of grant, business rates and reserves available for the year helps us calculate the amount of council tax needed. This has to be done in line with requirements of the Local Government Finance Act 1992.

The way we use our financial resources has a major impact on strategic planning and performance improvement. We have a five-year financial strategy that enables us to ensure that budget plans are consistent with our corporate priorities. Our budget is a key contributor to the achievement of our corporate priorities. The budget is the main mechanism that allows us to plan our activity and work from a stable financial base.

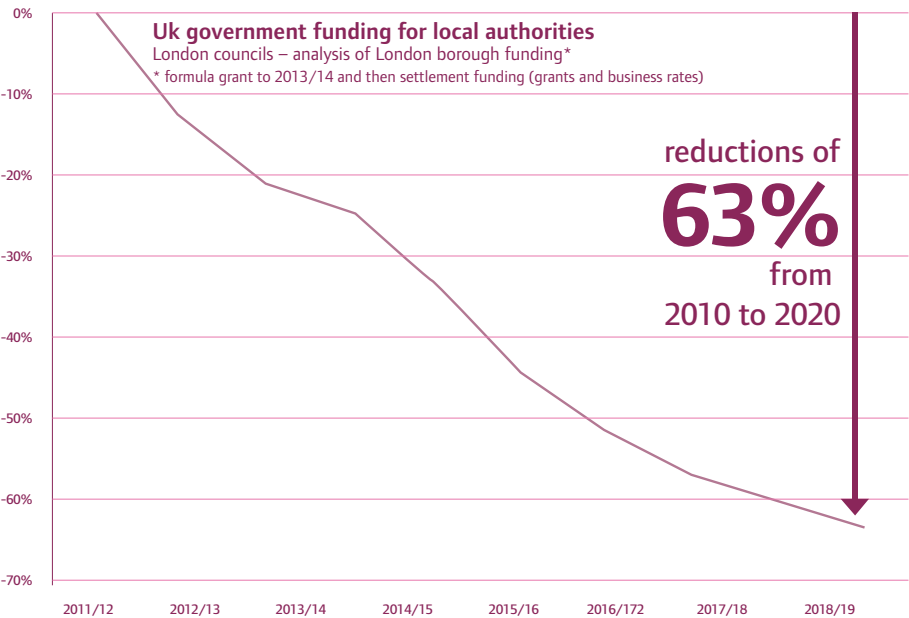

Our estimated level of resources available and the level of expenditure are subject to change, but the key assumptions for the revenue budget for 2018–2022 are as follows:

- The framework to 2019/20 is largely known, but depends on continuation of the London Business Rate pilot and the integrated Better Care Fund arrangements for health and social care funding.
- Beyond 2019/20 depends on national decisions regarding the Fair Funding Review and the Comprehensive Spending Review.

Continued public sector austerity is certain, and this means more cuts. The expected impact over the next four years is an additional £55 million of cuts.

Council tax as a percentage of our general fund budget:

Governance

Strong corporate governance arrangements are crucially important to the management of a modern and successful local authority. The governance arrangements to oversee delivery of the commitments within this Strategy are summarised in this section.

Full Council

All councillors and the Mayor have responsibility for decisions regarding:

- the constitution
- the budget and policy framework
- budget
- appointments to the Overview and Scrutiny committees and other committees.

Mayor and Cabinet:

- The Mayor appoints between two and nine individual councillors to the position of cabinet member and together they form the Executive (otherwise known as Mayor & Cabinet). Cabinet members act as spokespersons for the Council in relation to the area of their portfolio, and the Mayor has decided that all Executive decisions will be taken by the Mayor and Cabinet collectively.
- Mayor and Cabinet set out a programme of major decisions to be taken forward in a forward plan published monthly. All decisions have to evidence how they contribute to delivering the priorities of the Council.

Overview and scrutiny

Our Overview and Scrutiny committee helps the Executive to develop policies and budget. It also holds the Executive to account by:

- scrutinising
- examining
- asking questions of those who make decisions and provide services.

Local Assemblies

Local Assemblies provide a mechanism for local people to come together to discuss challenges and opportunities in their ward and make recommendations about the use of local funds to address these issues. There is a Local Assembly in every ward, each reflecting local circumstances and priorities and using existing engagement structures to bring local residents and groups together.

Local Democracy Review

In everything we do, we will seek to enable and empower our residents. In July 2018, we resolved to carry out a local Democracy Review to consider how we could:

- become more open and transparent
- increase public involvement in decision making
- promote effective decision making.

The review will report its findings and recommendations to the Council's AGM in Spring 2019 and this will inform how we will continue to deliver our priorities in partnership with our communities in the future.

Council

Consists of the mayor and 54 elected councillors – three for each of the 18 wards. They appoint the overview and scrutiny committee, and other committees, and approve the policy framework and budget.

Mayor and Cabinet

The Mayor:

- is elected by the whole borough to lead and speak up for all residents
- chooses up to nine councillors to form the cabinet, each with specific areas of responsibility
- sets out major decisions to be taken in a forward plan, published monthly
- proposes budget and key policy proposals to Council.

The Cabinet

- provides advice to the mayor
- takes decisions jointly with the mayor to implement policy decisions within the agreed policy framework.

Overview and Scrutiny Committee

The Committee:

- meets at least once a year and is ultimately responsible for overview and scrutiny
- delegates work and responsibilities to other scrutiny bodies – six select committees and two business panels – which are formally subcommittees of overview and scrutiny.

The business panel coordinates the work programmes of select committees and calls in decisions of Mayor and Cabinet.

The six select committees draw up work programmes each year to check performance, examine issues in depth and make recommendations for policy development.

Regulatory Committees

Performance management

The ability to manage our performance is critical to our success. It allows councillors, staff and the public to assess if we are:

- achieving what we set out to do
- delivering value for money
- making life better for our residents.

In this strategy, we have set out what our priorities are and what residents can expect us to deliver in the coming years. We will robustly monitor our progress in delivering these commitments.

Monitoring, measuring and managing our performance

As part of our commitment to openness and accountability, we will publish a new performance report on our website. This new report will enable residents and services users to monitor how we are performing against our new priorities.

It is a fundamental part of all managers' responsibilities to:

- review the performance of their services
- drive improvements
- achieve the outcomes our residents need.

All services and all staff have clear responsibilities in the delivery of our priorities: all of our teams have aligned their plans with the commitments in this strategy, and the ongoing delivery of this strategy will be embedded into all of our service planning and monitoring mechanisms from now on.
